SUMMARY

Third-year Software Engineering undergraduate at the University of Kelaniya with a strong passion for full-stack development. Skilled in developing innovative, real world solutions through automation and modern tech stacks. Eager to contribute to impactful projects, thrive in collaborative environments, and continuously grow as a developer and team player

EDUCATION

B.Sc.(Hons.) Software Engineering

University of Kelaniya

2024 – Present
Kelaniya Sri Lanka

- CGPA : 3.70
- Specializing in Net-Centric Applications, Data Science and Engineering Applications, Health Informatic Applications and Business Engineering domains.

G.C.E Advanced Level

Pushpadana Girls' College Kandy

2020 – 2023
Kandy, Sri Lanka

- Physical Sciences Stream
- Z-Score: 1.5289

SKILLS

- Frontend : React, JavaScript, HTML5, CSS, Tailwind CSS
- Backend : Express.js, Node.js, Java, PHP
- Database: MongoDB, MySQL
- Tools : Git, Docker, Figma, Canva, Postman
- Cloud Platforms: Vercel, Microsoft Azure

PROJECTS

BeautyHub

Individual

01/2026 – Present

Developed a responsive full-stack e-commerce platform for beauty products using the MERN stack. Implemented secure user authentication with JWT, featuring product catalog browsing, cart management, and user profiles.

- Keywords: eCommerce, Authentication, Responsive UI, RESTful Architecture
- Technologies: MERN, Tailwind CSS, JWT, REST APIs
- Github repo 

ReserveX

12/2025 – 02/2026

Academic - Group

Built a stall reservation system with dual online and admin portals for book vendors and event organizers. Implemented an interactive live map for stall selection, JWT auth, real-time dashboard analytics, and automated email confirmations with QR code receipts.

- Keywords : Stall Management, Interactive Map, Dual-Portal, QR Code
- Technologies : Spring Boot, React, MySQL, JWT, SMTP
- Github Repo [↗](#)

Blush-d

07/2025 – 09/2025

Academic-Group

Designed and developed a complete cosmetic e-commerce solution encompassing both a user-facing storefront and a secure administrative backend. Leveraging HTML5, CSS3, and JavaScript, I built a highly responsive frontend optimized for product discovery and cart management. On the backend, I utilized PHP 8.2 and MySQL to engineer custom RESTful APIs, facilitating secure user authentication, dynamic content updates, and robust inventory tracking. This dual-sided platform effectively streamlined both the consumer shopping experience and backend administrative operations.

- Keywords : E-commerce, Admin Dashboard, REST API
- Technologies : HTML5, CSS3, JavaScript, PHP 8.2, MySQL
- Github repo [↗](#)

CERTIFICATES

IEEEExtreme 19.0 Programming Competition(IEEE Sri Lanka Section) [↗](#)

Diploma in Website Development Using HTML and CSS(Alison) [↗](#)

Figma Design Basics and Features(Alison) [↗](#)

Diploma in C Programming(Alison) [↗](#)

VOLUNTEERING

Innovation Nation Sri Lanka IEEE Young Professionals SL-Project Coordinator

2026 – Present

IEEE WIE Affinity Group-Assistant Secretary

2025 – Present

Rotaract Club of University of Kelaniya-ER Coordinator
CollabFest'25

07/2025 – 10/2025

LANGUAGES

English(Professional Proficiency)

Sinhala(Native)
